Shelby Farms

10am-1pm

Vasculitis is a rare autoimmune disease that causes inflammation in blood vessel walls. This inflammation can cause the vessels to be weakened, stretch, narrow, or close completely.

Registration begins at 10 by Patriot Lake at Shelby Farms. It will be a fun time for the whole family with face painting and musical guest *Will Tell*. The money raised will be used to increase research and spread awareness.

Please have your pledge form completed for faster registration. *Each participant will receive a free t-shirt (while supplies last).*

Types of Vasculitis

Behcet's disease
Buerger's disease
